

A guide to the business...

About Liquid...

We provide qualified social work staff to fill temporary and permanent roles in a wide range of local authorities, NHS trusts, fostering agencies, charities and other private sector organisations.

Our social care division specialises in permanent placements for care assistants, nurses, managers, all the way up to directors of care home groups across the UK.

The way we work...

Our Consultants...

Success breeds success, and we have one of the most highly skilled recruitment teams in the UK.

Here's a little bit more information about our teams, and why they work so well...

- ◊ We have **low staff turnover** due to the high expectations involved in the recruitment process and exceptional training.
- ◊ Consultants work in teams based on geographical area, and within the team, **each individual has their own patch**, covering their own clients, with their own candidate base.
- ◊ The regional teams are **supportive, tight-knit groups**, where consultants work together to help each other.
- ◊ All our consultants work incredibly hard, and we are always sure to **reward their success**.

Structure & Resources...

Liquid Personnel has a flat management structure, meaning you are not just a small cog in a big machine – everyone's opinion matters and we can all help shape the future of the business.

We have an exceptional management team, who have a wide range of recruitment experience and expertise. You can find out more about them on the 'Join Our Team' section of our website.

We have established PSL status with almost every local authority in the UK, along with a large number of quality care organisations, charities and fostering agencies.

Our philosophy of **supporting our consultants** means we can free up your time by providing exceptional support and leveraging technology to make us more efficient...

- ◊ Our dedicated **business support** team deals with candidate compliance and administration.
- ◊ **Resourcers** advertise roles, manage responses, scour CV databases and search other resources to provide a constant stream of new, quality candidates.
- ◊ The **finance team** manage payroll for all of our contractors, and deal with credit control.

Working Culture...

- We work for 41 hours per week from Monday to Friday, with a 7 o'clock finish on Tuesday and Thursday, but typically consultants do work longer hours.
- We spend a great deal of time on the phones.
- We work according to a small set of performance indicators, (this is used as a guide to an individual's progress and an aid to personal development, rather than a stick to beat someone over the head with!)
- We encourage healthy competition between teams and consultants.
- Our consultants are a fun-loving bunch from all over the UK, which makes for a really lively atmosphere and lots of office banter.

What's in it for you?

Recognising Success...

We run regular competitions in the office, a consultant of the month competition, and a team of the month competition where the prize is an afternoon off work.

There are also great opportunities for progression; we empower our consultants to develop and manage their own desk like their own business. Successful consultants have the potential to progress through the ranks as a Senior Consultant, Team Leader, Internal Recruiter, or Key Account Manager.
